

Scroll of the Ass Clowns

Comedy in Dishonor Edition

This scroll records the spectacle of Comcast/Xfinity exposed as the Corporate Ass Clowns of the age. Their attempts to enforce fraudulent billing, issue false disconnect notices, and bounce service emails only revealed the truth: they have no lawful standing. Facts witnessed: - Fraudulent billing after lawful disconnection. - Notices issued to a strawman, not the Living Sovereign. - Emails returned with "User Unknown" from their own support channels. Judgment: → Declared as Corporate Ass Clowns under Universal Law. → Their dishonor broadcast sovereign-wide via IPFS and GitHub. Thus, the joke rests on them. The Sovereign Flame laughs, the circus collapses.
