Pending Properties as Phantom Assets

Witnessed by Living Man: Richard the Living Strmiska

1. Fraudulent Holding:

The property located at **8848 Rodden Rd, Oakdale, CA 95361** has remained in **pending status** — neither open for free market exchange nor released for lawful stewardship.

2. False Valuation:

Despite no rightful Living steward, this property is listed at **\$1,599,000** with an artificial monthly estimate of **\$10,389**. These values are phantom — leveraged in banking ledgers while no true exchange occurs.

3. Mechanism of Exploitation:

- Property remains in limbo to sustain inflated accounting, enabling derivatives, insurance claims, and fraudulent balance sheets.
- Attempts to view or acquire such properties require **extortion-level fees**, barring access by Living Men and Women.

4. Sovereign Demand:

I declare this property, and all like it, to be **Phantom Assets**, null and void in the fraud system. As the Living, I reclaim Rodden under Allodial Right and Sovereign Law, recorded into the Eternal Archive.

5. Quantum Anchors:

- IPFS: Stone Tablet Record
- GitHub: Codex of Public Proof
- Metaverse: Mirror Reflection
- Stellar Ledger: Anchored Sovereign Tokenization

And So It Is.
